WEB DEVELOPER SUMMARY

As a Frontend Web Developer, I develop accessible, responsive, and engaging websites and apps using **WordPress**, **HTML5, CSS3, SCSS, React**, and **JavaScript**. As a former senior accountant and CPA, I have 10+ years of experience working in senior positions, meeting tight deadlines, and developing billion-dollar budgets and forecasts. My experience has equipped me with transferable skills including attention to detail, analytical skills, and problem-solving abilities. Besides coding, I've traveled extensively worldwide and received my yoga certification. I currently enjoy spending time with my family.

PROJECTS

Choose your makeup! | HTML **|** SASS | React **|** GitHub **|** API **| <LIVE> <REPO>**
- An elegantly designed and developed e-commerce website using React and the makeup API. The user can select the price and product they want. Includes a scroll to the top function.

Find your podcast | SASS | React **|** GitHub **|** API **|** Firebase **| <LIVE> <REPO>**
- A fun app where the user selects the length of their podcast using a slider and the genre of the podcast using the listennotesAPI. The user can also save to their playlist or delete their selection. Developed and designed collaboratively using peer programming techniques.

Who Is Your Animal Match? | HTML **|** CSS **|** SASS| JavaScript **|** GitHub **|** API **| <LIVE> <REPO>**
- A lighthearted app that matches the user's personality to an animal photo. Using the user's inputs, it fetches data from the Pexels' API and displays the resulting match. Developed and designed collaboratively using peer programming techniques Fiona Freemark. Added Javascript including a scroll to the bottom on mobile and created a loader.

Bird of Paradise | HTML **|** CSS **|** SASS| JavaScript **| <LIVE> <REPO>**
- Are you a bird lover? This eye-catching landing page is for you. Developed this stunning birds-of-paradise landing page that is functional and responsive.
